Fernando Portfolio - Content Selection

Circle your favorite option for each section

1. BADGE / OPENING TAGLINE

The small text that appears above your name

[ ] Option A:

"From Wrench to Code"

[ ] Option B:

"Staff Engineer at Tesla"

[ ] Option C:

"Mechanic turned engineer"

[ ] Option D:

"Available for Opportunities"

[ ] Option E:

"From automotive technician to software engineer"

[ ] Option NEW:

"Self-taught engineer. Mechanic turned developer."

[ ] Write your own: _____

2. HEADLINE / NAME PRESENTATION

How your name appears in the hero section

[ ] Option A: (Two lines, serif font, last name highlighted)

Fernando / Fernandez

[ ] Option B: (Story-focused, action words)

From the Shop Floor to / Software.

[ ] Option C: (All caps, bold, gold accent)

FERNANDO / FERNANDEZ

[ ] Option D: (Single line, elegant)

Fernando Fernandez

[ ] Option E: (Two lines, gradient accent on last name)

Fernando / Fernandez

[ ] Option F: (Impact-focused, not your name)

Building systems that / save millions

[ ] Write your own: _____

3. HERO SUBTITLE / INTRO

The paragraph that appears below your name

[ ] Option A:

An automotive technician who taught himself to code, now building diagnostic systems that serve thousands of technicians at Tesla.

[ ] Option C:

Mechanic turned engineer. Building systems that matter.

[ ] Option D:

Staff Product Support Engineer at Tesla. I build diagnostic automation systems that have saved $12.8 million and reduced repair times by 38%.

[ ] Option E:

From automotive technician to software engineer. I build systems that automate diagnostics and save millions.

[ ] Option LONG:

A self-taught engineer who went from automotive technician to building diagnostic automation systems at Tesla. My work has generated $12.8M in documented savings.

[ ] Write your own: _____

_____

4. ABOUT ME PARAGRAPH

The longer description of your journey

[ ] Option SHORT:

I spent years as an automotive technician, diagnosing problems by sound and instinct. Taught myself Python through YouTube tutorials. Now I build diagnostic automation systems at Tesla that have saved $12.8 million and reduced repair times by 38%.

[ ] Option MEDIUM:

I started my career as an automotive technician, diagnosing engine problems by sound and instinct. Every engine told a story. I taught myself Python through YouTube tutorials after work. That curiosity led me from the shop floor to Staff Product Support Engineer at Tesla, where I now build the diagnostic automation systems that help technicians work smarter.

[ ] Option TEXAS:

I started my career as an automotive technician, diagnosing engine problems by sound and instinct. Every engine told a story. I taught myself Python through YouTube tutorials after work. That curiosity led me from the shop floor to Staff Product Support Engineer at Tesla, where I now build the diagnostic automation systems that help technicians work smarter. Based in Texas, I bring a unique perspective—hands-on problem solving, slow-smoked brisket on weekends, and the grit to run 26.2 miles.

[ ] Write your own: _____

_____

5. TIMELINE / JOURNEY STYLE

How to present your career progression

[ ] E - FULL:

Full detailed timeline from high school to present with milestones, company names, and descriptions for each role

[ ] A - SIMPLE:

Brief 'From Wrench to Code' narrative without detailed timeline

[ ] J - TERMINAL:

CLI-style career progression (neofetch output format)

[ ] F - CARDS:

Project-focused cards showing impact rather than chronological timeline

6. METRICS / IMPACT DISPLAY

How to show your quantifiable achievements

[ ] PROMINENT:

Large metrics in hero section: $12.8M | 38% | 7,500+

[ ] CARDS:

Individual project cards with specific impact per project

[ ] SUBTLE:

Woven into prose (e.g., 'saved $12.8M' in paragraph)

[ ] BADGE:

Stats bar format: '7,500+ automations | 105+ stakeholders | 11+ years'

7. BBQ BADGE / PERSONAL TOUCH

How prominent should the BBQ achievement be?

[ ] PROMINENT:

Badge in hero section: '2x Backyard Brisket Competition Winner'

[ ] SECTION:

Separate 'Personal Interests' section with BBQ, Marathon, Texas

[ ] SUBTLE:

Brief mention in about paragraph ('slow-smoked brisket on weekends')

[ ] NONE:

Skip it for professional version

8. CONTACT / CALL TO ACTION

How to invite visitors to reach out

[ ] A: 'Let's Connect'

[ ] B: 'Let's Talk'

[ ] C: 'Get in Touch'

[ ] D: 'Start a Conversation'

Contact description options:

[ ] 1: Always open to interesting conversations about tech, BBQ, or marathon training.

[ ] 2: Open to conversations about engineering, career transitions, or competitive BBQ.

[ ] 3: Interested in discussing engineering, career transitions, or BBQ.

[ ] 4: Open to discussing engineering, automation, or BBQ techniques.

9. SPECIAL ELEMENTS (Check all you want)

[ ] Sensor demo animation (shows technical skills visually)

[ ] Photo placeholder (for future headshot)

[ ] Marathon time display (4:29:46)

[ ] Skills/Languages list

[ ] Social links (LinkedIn, GitHub, X)

[ ] ASE Master Technician certification mention

[ ] 'Available for Opportunities' indicator
